PART THREE: LIMITATIONS OF TREATMENT

You can decide what kind of treatment you want or do not want at the end of your life. These wishes can apply to all situations or to situations that you specify. Regardless of the treatment limitations stated you have the right to adequate management for pain and other symptoms (nausea, fatigue, shortness of breath) related to your illness. Unless treatment limitations are stated, the medical teams are required and expected to do everything possible to save your life.

1. If my heart stops: (choose one)

- ☐ I DO want CPR done to try to restart my heart.
☐ I DON'T want CPR done to try to restart my heart.

CPR means cardio (heart)-pulmonary (lung) resuscitation, including vigorous compressions of the chest, use of electrical stimulation, medications to support or restore heart function, and rescue breaths (forcing air into your lungs).

2. If I am unable to breathe on my own: (choose one)

- ☐ I DO want a breathing machine without any time limit.
☐ I want to have a breathing machine for a short time to see if I will survive or get better.
☐ I DO NOT want a breathing machine for ANY length of time.

"Breathing machine" refers to a device that mechanically moves air into and out of your lungs such as a ventilator.

3. If I am unable to swallow enough food or water to stay alive: (choose one)

- ☐ I DO want a feeding tube without any time limits.
☐ I want to have a feeding tube for a short time to see if I will survive or get better.
☐ I DO NOT want a feeding tube for any length of time.

Note: If you are being treated in another state your agent may not automatically have the authority to withhold or withdraw a feeding tube. If you wish to have your agent decide about feeding tubes please check the box below.

- ☐ I authorize my agent to make decisions about feeding tubes.
-

4. If I am terminally ill or so ill that I am unlikely to get better: (choose one)

- ☐ I DO want antibiotics or other medication to fight infection.
☐ I DON'T want antibiotics or other medication to fight infection.
-

If you have stated you DO NOT want CPR, a breathing machine, a feeding tube or antibiotics under any circumstances, please discuss this with your doctor who can complete a DNR/COLST form to ensure you don't receive treatments you don't want, particularly in an emergency situation. A DNR/COLST order will be honored outside of the hospital setting.

PART FIVE: WAIVER OF RIGHT TO REQUEST OR OBJECT TO TREATMENT

Section Five is a special provision that may be used by people who want their future responses to offered health treatment disregarded or ignored. *You must have an agent to fill out this Section.*

There may be situations in which you might be objecting to or requesting treatment but would then want your objections or requests to be disregarded. If you have had treatment in the past that scares you or is uncomfortable or painful you may be likely to say “no” when it is offered in a future health crisis. Still, you may know that this is the only way for you to come through a bad time or even survive. You understand that it is necessary and you would want it again if you had to have it. This Section will help you let your agent and others know what you *really* want for yourself when you have capacity to make those decisions.

Because this section includes giving up a basic right that all patients have (to refuse or to request treatment) unless a court orders otherwise, you will need to give this much careful thought. You will also have to have additional signature(s) and assurances at the time you fill out this Section of your Advance Directive.

If you think Part Two Section Two could apply to you and be helpful in your situation, you need to be sure that everyone involved in your care understands that you are making this choice of your own free will and that you understand the ramifications of waiving your right either to consent or to object to treatment.

Unlike other Parts of your Advance Directive, you can revoke this section only when you have capacity to make medical decisions as determined by your doctor and another clinician.

For your agent to be able to make healthcare decisions over your objection, you must:

- Name your agent who is entitled to make decisions over your objection;
- Specify what treatments you are allowing your agent to consent to or to refuse over your objection;
- State that you either do or do not desire the specified treatment even over your objection at the time;
- Acknowledge in writing that you are knowingly and voluntarily waiving the right to refuse or receive specified treatment at a time of incapacity;
- Have your agent agree in writing to accept the responsibility to act over your objection;
- Have your clinician affirm in writing that you appeared to understand the benefits, risks, and alternatives to the proposed health care being authorized or rejected by you in this provision; and
- Have an ombudsman, patient representative, attorney licensed to practice in Vermont, or a probate court designee affirm in writing that he or she has explained the nature and effect of this provision to you and that you appeared to understand this explanation and be free from duress or undue influence.

NAME _____ DOB _____ DATE _____

I hereby give my agent _____ the authority to consent to or refuse the following treatment(s) over my objection if I am determined by two clinicians to lack capacity to make healthcare decisions at the time such treatment is considered:

I **do want** the following treatment to be provided, even over my objection, at the time the treatment is offered:

I **do not want** the following treatment, even over my request for that treatment, at the time the treatment is offered:

If it is determined that I am in need of hospitalization:

☐ I authorize my agent to consent to my voluntary admission to the hospital.

Acknowledgement by Principal:

I hereby affirm that I am knowingly and voluntarily waiving the right to refuse or receive treatment at a time of incapacity, and that I understand that my doctor and one other clinician will determine whether or not I have capacity to make health care decisions at that time. I know that I can revoke this part of my Advance Directive only when I have the capacity to do so, as determined by my doctor and at least one other clinician.
